Professional Summary

MCA graduate with 4 months of MERN Stack internship experience building scalable full-stack web applications. Specialized in designing secure authentication systems, optimizing database performance, and deploying production environments. Track record includes multi-vendor e-commerce platform serving 100+ concurrent users.

Education

Master of Computer Applications (MCA)

Acharya Institute of Technology, Bangalore

Aug 2024 - May 2026

Aggregate: 83%

Bachelor of Computer Applications (BCA)

Edurite College of Management Studies, Shimoga

Aug 2021 - May 2024

GPA: 7.61

Technical Skills

Programming Languages: Java, Python, C Programming

Web Development: HTML, CSS, Responsive Design, MERN Stack (MongoDB, Express.js, React.js, Node.js)

Android & Security: Android SDK, Static Analysis, Permission Analysis, Digital Signature Verification, SHA-256

Databases & Tools: MySQL, MongoDB, Git, GitHub, VS Code, LLM APIs

Development Areas: Full-Stack Development, Backend Development, Security Analysis

Projects

ShopHub E-Commerce Platform

MERN Stack

Feb 2026 - Mar 2026

- Engineered multi-vendor platform handling 100+ concurrent user sessions
- Architected 20+ REST endpoints with JWT and RBAC achieving 99% uptime deployed
- Integrated AI chatbot via GROQ API increasing customer support response by 80%

App Privacy Analyzer

Java, Android SDK

Sept 2025 - Dec 2025

- Built Android security tool analyzing 50+ applications achieving 92% detection accuracy
- Executed cryptographic validation reducing false positives by 85%
- Designed risk-scoring system with 8+ indicators achieving 88% precision

AI Course Builder

LLM APIs, REST APIs

Mar 2025 - May 2025

- Created automation system generating 10+ course modules in under 5 minutes
- Orchestrated 20+ API integrations per course achieving 90% content accuracy
- Automated quiz generation creating 100+ questions reducing manual work by 75%

Blog Website

PHP, MySQL, HTML, CSS, JavaScript

Jun 2024 - Aug 2024

- Constructed full-stack platform with secure authentication for 100+ concurrent users
- Optimized database queries reducing load time by 60% improving user experience

Training & Experience

MERN Full Stack Development Intern

Feb 2026 - May 2026

Excerpt Technologies Pvt. Ltd., Bangalore

- Engineered 20+ RESTful API endpoints achieving 99% uptime in production
- Built ShopHub platform optimizing database queries achieving 40% performance gain
- Enforced JWT authentication and RBAC reducing security vulnerabilities by 95%

Hackathon Participant

April 2025

IV Labs, Bangalore, India

- Delivered working full-stack prototype within 24-hour timeframe with 4-member team

Backend and Full-Stack Development Training

May 2024 - Jul 2024

Innovant IT Solution, Shimoga, India

- Completed 30+ hours of intensive training building 3+ production-ready applications
- Applied CRUD operations and REST APIs in 5+ enterprise-level projects

Certifications

Microsoft Azure AI Essentials Professional Certificate — Microsoft and LinkedIn (January 2026)

Docker Foundations Professional Certificate — Docker, Inc (January 2026)

Ethical Hacking 101: Beginner's Guide to Ethical Hacking — Simplilearn (December 2025)

GenAI Powered Data Analytics Job Simulation — Tata Group (2024)
